

Tools You Can Use!

Web Support Services for ANR

Workgroup/Program Website Support

A template-driven, customizable website system and web-based collaborative tools

Key features

Accessible

- Designed to make information easy to find
- Standard links help visitors navigate easily among ANR, UCCE, and related websites
- Pre-loaded workgroup project info
- Robust search feature reaches all websites on our server and some hosted elsewhere

Web-based collaborative tools

- A simple system of interactive tools that allow your group to stay connected
- Threaded e-mail discussion groups
- Shared file storage and retrieval that tracks versions and who made changes
- Password protected

Convenient and adaptable

- No special knowledge of HTML, Javascript, or web development software required
- Easy-to-use web-based forms help you create, change, and edit your site
- Consistent look for all participating workgroups or programs, but with room for local photos, seals, etc.
- Easily customized to fit your unique programs and issues
- A comprehensive, flexible, and easy-to-use events calendar
- Easy upload of reports, newsletters, pictures, and other information specific to your program or workgroup
- Conversion of your existing website on request
- Flexibility, flexibility, and more flexibility!

Scalable and reliable

- No-charge website hosting, maintenance, and backup services
- No limit on memory allocation for websites
- Support: A programmer and a web designer are assigned exclusively to the Web Support Services project
